Update

The board of directors met January 2, 2025 for our first meeting of the new year and training with Paul Wyman . It was both productive and educational. The board of directors unanimously voted to remove the commercial input field in the matrix system. This decision did not come lightly but keeping with the vision of the board and upholding the highest standards for our customers and community, the board felt it necessary to remove the commercial field from the matrix system effective February 1, 2025. The new commercial platform, Moody, is available and is up and running. If you have any questions or concerns you may reach out to the board President Susan Riley - SRiley@28first.com or 812-989-1063 or contact SIRA
